

## BETTER BUSINESS SOLUTIONS FROM FUJI XEROX BUSINESS CENTRE SUNSHINE COAST

**Delivering fast, secure and reliable business systems to the Sunshine Coast since 1986.**

We know the business environment has changed dramatically since we first offered the Xerox Able digital laser copier to the market (and everyone was excited that it could both print and copy!), but just as your needs have evolved, so have our services.

Beyond our extensive range of multi-function printing equipment, our expert team provides outstanding solutions to enable businesses to operate safely and efficiently in the digital business age.

Efficient and organised businesses are better equipped to maximise profits, reduce stress and leap onto exciting opportunities.

For a complete office management system that works, partner with Fuji Xerox Business Centre Sunshine Coast.

# OUR SERVICES

## EMPOWERING BUSINESSES OF THE FUTURE

Working from home, on the road, all hours of the day and night, connected with offices interstate and internationally... we've got you covered with smart business systems to support businesses of the future.

## INFRASTRUCTURE, CONNECTIVITY & SECURITY

It's fair to say almost all businesses these days require fast, reliable internet, computer systems, phone systems and office equipment, and do not want any of these things to be compromised. Our team of tech experts are highly trained and experienced in all matters of connectivity and security and we can ensure your business is properly connected as well as and protected from the online dangers present in the outside world.

Working with world-leading suppliers and providers, we can set your business up for success ensuring all your staff are able to work efficiently and with the security of digital firewalls and security cameras to protect your business from a range of threats. Our services also extend to visitor management and staff logs so you can understand who is in your office at any given time.

## TELEPHONE SYSTEMS

Forget the frustrations of phone networks that don't complement your business model while charging you through the roof. If you're looking for a way to save on calls and work with a system that provides flexibility, transparency and easy DIY updates for voicemail, diversions, holiday and promotional messages and more, talk to our expert team!

Affordable, geographically diverse and able to connect from anywhere on the planet with suitable broadband connection and with easy to use administration software, our web-based phone systems can support both large and small businesses to better connect, track and manage phone communications at very affordable rates (well below legacy ISDN services).

## DOCUMENT & WORKFLOW SOLUTIONS

Paperwork, files and documents - whether they're electronic or in hard copy, if you've got to share them with others or across different devices you've probably experienced countless frustrating scenarios of losing, misfiling and overwriting documents, or uncovering unnecessary duplicates clogging up your system.

Our team finds great satisfaction in cleaning up document messes and setting up smart processes that will see everyone working on the same (digital) page. You'll never lose a file or have your precious work overridden again... and our system can even do most of the filing for you! Plus being optionally cloud-based, everything from your project notes to your invoices is easily accessible if you're working from home or on mobile out at a client meeting. You'll effectively have your whole office in your back pocket while being fully protected by the world's top firewall system.

## PRINTERS, SCANNERS & COPIERS

We are proud to be an Exclusive Fuji Xerox Dealer working with Fuji Xerox Australia to help Australian businesses work smarter, more efficiently and with control costs through our unparalleled range of multifunction devices, printers and photocopiers.

These intelligent machines seamlessly connect to our leading document systems and work best on our fast and secure network infrastructure to ensure a complete and safe business solution that works effortlessly. We provide in person training as well as manuals to ensure staff confidence in the equipment but are also readily available for any technical support as we are based right here on the Sunshine Coast.

Not only are we renowned for our excellent business printing equipment, but we also provide outstanding solutions for the graphic design and commercial printing industry with the broadest range of digital presses, wide format printers and advanced automation systems.

**“ WE AT VANTAGE, A MEDIUM SIZED BUILDING COMPANY WITH 50 STAFF, HAVE BEEN DEALING WITH GRANT KIMMORLEY AND HIS TEAM AT FUJI XEROX BUSINESS CENTRE SINCE 2010. EVER SINCE I FIRST MET GRANT HE HAS STOOD BEHIND THE FUJI XEROX PRODUCT AND THE SERVICE HIS TEAM PROVIDES AS BEING THE BEST IN THE MARKETPLACE, AND FROM OUR EXPERIENCE HERE AT VANTAGE I CANNOT DISAGREE. ”**

**- Glenn Charmichael - Operations Director, Vantage Holdings**

The Fuji Xerox Business Centre Sunshine Coast has been serving this dynamic coastal city since 1986, growing from an initial team of three to now a large team of tech, sales and management system experts dedicated to supporting better business. A local, family owned business, FXBCSC offers sales, support and supplies all from their Birtinya location, servicing a footprint from Morayfield in the south to Gympie in the north and west to Kingaroy.

As the business has grown over the last 30+ years, so too has their ability to support the Sunshine Coast community through partnerships with charities and groups including Steps Group, Fusion Sunshine Coast, Team Adem, Make A Wish Foundation Sunshine Coast, Suncoast Care and Sunshine Coast Grammar School. FXBCSC also supports several of the local chambers of commerce, including Caloundra, Kawana and Maroochydore.

With our products and services ever evolving to meet the needs of forward-thinking businesses, our team customises solutions to meet your current needs while setting you up for business success into the future.

Sunshine Coast

## Did you know Fuji Xerox are industry leaders in sustainability?

Since 2012 Fuji Xerox Australia has been achieving zero waste to landfill, collecting and recycling 100% of everything we send out to customers and our waster toners are even used in bitumen!
